**Funded by the  
European Union**  
NextGenerationEU

Dunderrow NS received a grant in 2021 to implement initiatives aimed at tackling the digital divide and supporting our learners at risk of educational disadvantage as a result, as part of Ireland's National Recovery and Resilience Plan (NRRP), a project under the Recovery and Resilience Facility funded by the European Union through NextGenerationEU. This funding was used in accordance with the criteria set out in circular 0060/2021 for the following improvements:

- Laptops, tablets and headsets were purchased which enabled children to complete formative assessments, record oral language progress and engage in student voice activities. Student used these technologies to communicate school events with school community.
- Interactive touch screen boards and visulaisers were purchased which facilitated more active learning and student engagement with the Primary Language and new Primary Maths Curriculum.
- Digital STEM initiatives were developed with integrated coding taking place to promote collaborative classroom learning. Students built and shared digital projects in line with the school's Digital Learning Plan.
- Staff upskilling in the form of Teacher Professional Learning was facilitated on the use of Seesaw and Google classroom to develop sustainable digital pedagogy.
